C.L.A.S.S. LifeSkills for December: Caring and Effort

## Attendance for Student Success

Attendance is a critical factor in any child's school success. Children should attend school every day, except in cases of illness or emergency. It is impossible to replace the learning that happens on any school day with make-up work. **Regular attendance and promptness are good habits that are expected and appreciated at all levels of schooling and in the work place.** This year, make school a priority in your household. If your student is absent, they can go online to their Google Classroom to find the day's assignments. Commit to excellence in attendance. Your child's future depends on it!

## UPCOMING EVENTS

Dec 7-10	Student Council Candy Grams
Dec 8	Food Pantry @ H.S.
Dec 14	UCCCJSD Board Meeting 7:00
Dec 14-17	Student Council Canned Food Drive
Dec 18	End of Grading Period
Dec 18	Textbook Payment Due
Dec 21	Winter Break
Jan 4	School Resumes

## Math Tips for Parents: Beyond $2 + 2 = 4...$

Parents should encourage creative problem solving. Problem solving is the basis of good mathematical thinking, and the problems do not have to involve only numbers. Below are the sort of mathematical reasoning problems that the Indiana Academic Standards ask:

- Explain how you know that  $7/12^{\text{th}}$  is greater than  $1/3^{\text{rd}}$  but less than  $2/3^{\text{rds}}$ .
- Draw a picture to solve this problem: You need to put 20 ice cubes into 5 glasses. How many cubes should go into each glass?
- What's another way to arrange the furniture in a particular room?
- Bailey has 39 moon stickers and 52 star stickers. How many more star stickers than moon stickers does she have?
- Elliott says that  $1/8$  is greater than  $1/4$  because 8 is greater than 4. Is she right? Explain your answer.
- How many different ways can Julie measure flour to get half a cup?
- Martin buys a sandwich for \$4.00, an apple for \$.95, and

- a soda for \$2.20. How much did he pay in all? How much change did Martin receive if he paid with a \$20 bill?
- Adam has \$20 to spend. He wants to spend \$3 each day for 5 days and \$4 on the weekend. Does he have enough money? If so, how much will he have left?

**Choose gifts that develop problem-solving skills.** Blocks, building sets, geometric tile sets, puzzles, board games, weather stations, maps, puzzle books, strategy games, chemistry sets, and origami are just a few of the gifts that will give your child pleasure and knowledge at the same time.

*Merry Christmas and Happy Holidays from the teachers and staff to all the families of Liberty Elementary School!*

## **SwiftK12** **Notifications**

Please make sure that you have a **current** cell phone or home phone number in the *SwiftK12* system. As winter weather looms closer, we want to ensure that all our parents and guardians are notified of school closings, delays, and early dismissals. If you need help with how to update your contact information in Power School, please call the school office.
