RE: Pauly Jail Building Company, Inc. – Letter of Recommendation

To Whom It May Concern

We are currently working with Pauly Jail Building Company on the Wayne County Criminal Justice Center Project in Detroit Michigan. This project includes a five story 2280 bed Adult Detention Facility, a three story 160 Bed Juvenile Detention Facility, a seven story courthouse with 29 courtrooms, and a four story Sheriff's Office.

Pauly Jail Building Company was instrumental in the Design Assist and construction portions of this project and provided several cost savings and constructability suggestions that helped in keeping the project on track and on budget. Pauly Jail and their team of manufacturers were well organized, professional, proactive and responsive to the needs of the project. Pauly Jail worked with Barton Malow and all stakeholders to ensure any and all issues were handled in a timely manner and costs were transparent, which allowed us to react and manage the project more efficient, adjust schedules and scope in a manner to help with the very high demands of the project.

I highly recommend using Pauly Jail Building Company for your Detention Equipment Contractor needs. My experience with Pauly Jail on the Wayne County CJC project has been exceptional, and we wouldn't be where we are on the project without them. Please feel free to contact me with any questions.

Sincerely,
