SUBJECT: Sanilac County Addition & Renovation Project, Letter of Recommendation

Ms. Marshall,

It is with great pride, pleasure, and gratitude that I am writing this letter to say thank you and all of your staff at Pauly Jail Building Company for a job well done on our jail addition and renovation project.

From day one of the project your company's presence was known as Pauly led the way in making the pieces fit. The project started in July of 2012 with phase one the addition, and culminated in February of 2014 with the renovation complete. Pauly Jail Building Company owned this project, and made several cost saving recommendations along the way.

One suggestion I recall was made by Mr. Jared Bailey was to upgrade the original 1955 portion of the jail by replacing the old brass lock and keys with the latest technology of installing electronic door locks. I now know the project would have failed without this conversion. Although it was Accurate Controls who did the electronics, Mr. Bailey and your field Superintendent Travis Bush coordinated the conversion with Accurate Controls to make it all work.

Customer service is important to me and there was no letdown by the company. Pauly Jail repaired or replaced components in a timely manner to keep us up and running.

In closing I would recommend Pauly Jail Building Company to any detention facility whether building new or renovating an existing prison or jail and want to extend a heartfelt thank you to both Jared Baily and Travis Bush for a job well done.

Sincerely,

Garry M. Biniecki
Sheriff of Sanilac County
